Use Permit

Businesses that need a Use Permit may require a public hearing before the Zoning Adjustments Board, which has the power to approve, condition, or deny an application. Inspections

When a business moves into an existing building, a building inspection will probably be required to ensure life safety and compliance with the building codes. This inspection may be required whether or not the proposed business differs substantially from the previous use. Businesses going into new or very recently completed buildings are normally exempted from an inspection. For more information contact Building & Safety: (510) 981-7440, buildingandsafety@cityofberkeley.info.

Exterior Signage

The installation of new signs (or the transfer of existing signs to a new building) is subject to review under the City's Design Review Ordinance. Signs must also conform to the Berkeley Sign Ordinance. Sign applicants should first contact the planner assigned to Design Review at the Zoning Counter, then go to Building Permits at the Permit Service Center. Find a Location for Your Business

Choosing a business location is perhaps the most important decision a small business owner or startup will make. It involves looking at demographics, assessing your supply chain, scoping the competition, staying on budget, and understanding state laws and taxes.

Locate in Berkeley

Looking for a space for your business in Berkeley? Use online tools to find commercial real estate throughout Berkeley. Search by use (retail, office, industrial), neighborhood, square footage or other key criteria. See property photos, descriptions and connect to brokers or owners. [Find resources to begin your search!](#)

Zoning Compliance

A review for zoning compliance is required if you are starting a new business, changing the nature of your business, or applying for a building permit (e.g. for an interior remodel). Before deciding on a location for your business, be sure to check what your desired location is zoned for in order to determine whether or not your business type is a permitted use.

Zoning Lookup: <https://berkeleyca.gov/construction-development/land-use-development/zoning-lookup>

Some businesses may require a Zoning Certificate (ZC) or Administrative Use Permit (AUP), while others may require a Use Permit (UP) with a public hearing; it depends on the location and business type. Zoning Certificates can be obtained 'over the counter' in one day, whereas obtaining an AUP or UP is a months-long process.
